

Ermewa is a European leader in railcars leasing. The company also provides maintenance, repairs, and operations through its European network of certified workshops and partners. It addresses all segments thanks to its +47,000 railcars. With a network of 18 offices in Europe, Ermewa provides industrial companies, Railway undertakings and freight forwarders with a range of more than 120 different types of railcars. It is certified EcoVadis (Gold medal) for its CSR performances.

Ermewa is a subsidiary of Stroom, one of the leading global players of the freight railcar and tank containers leasing industries.

**As part of its expansion, Ermewa is recruiting a
Railcar Production Quality Expert M /W
(Location: Romania)**

Tasks :

He / She directly reports to the Railcar Production Quality Manager (RPQM).

He / She is in charge of:

- The follow-up and the assessment of production lines and wagon assembly according to related process and norms.
- The compliance to the specifications agreed.
- The checking of technical information supplied by the manufacturers as well as the cross control of data sheets/wagon.
- The delivery of the acceptance report according to the related process.
- He notifies to the RPQM any abnormal behavior detected in the workshop (workers, environment, etc...)
- He/ She notifies defects and issues non-conformities to manufacturers and ensures that they are properly handled by their quality department in connection with the RPQM.
- He / She is in charge of the follow-up of the project "on the field", in coordination with:
 - The manufacturer.
 - The new build expert, who is the project manager for all the technical aspects.
 - The purchasing department for the reception planning organization and follow-up.
- He / She provides a technical support to the claim coordinator and facilitates the exchanges with the manufacturer in this purpose.

This position is "80% to 90%" travelling across Europe.

Profile :

- He / She has a solid knowledge of wagon technicalities, the maintenance schemes, the standards of welding, sandblasting, painting and mechanics assembly of the wagon.
- He / She is able to manage the manufacturers pressure when they asks to validate the wagons, and argue with them.
- Proficient in informatics tools, ERP, processes, and controls attached to his title.
- Comfortable to write reports / emails.
- Able to support physical constraints.
- Language: Fluent in English.
